### PROJECTS

16/12/2025 – 21/12/2025

**Against Internet Slang, For a Strong Mother Tongue!**

Against Internet Slang, For a Strong Mother Tongue! was a Training Course organized by DÜNYA YAZARLAR VE AYDINLAR DERNEĞİ in Ankara, Türkiye. The project focused on how abbreviated words used on internet platforms

negatively affect local languages. We conducted fieldwork and workshops to raise awareness about preserving native languages in the digital age. My role and learning: I took a lead role in the creative content labs, focusing on producing short videos and digital visuals. I utilized my technical skills in Adobe Premiere Pro and Photoshop to create high-quality content for the project's dissemination. As a local participant, I also contributed as a team coordinator during the fieldwork in Ankara, enhancing my digital literacy and cultural awareness competencies.

Verification: Youthpass ID: 3VRF-YJ3T-EBBC-GZZS, Verify at: <https://www.youthpass.eu/verify>

### Cybersecurity Training Simulation TÜBİTAK 2209-A Project

An interactive training simulation was designed to enhance cybersecurity awareness. The technical architecture and simulation environment for phishing and network attack scenarios were developed.

●
